Hi Ravi, Kathleen, and Karen.

I have attached the hazard ID and dose-response section of the B[a]P documents sent to Vince. I highlighted in blue (text edits and comment bubbles) the places I think we may need to re-revise or discuss how to address more succinctly (if that is the reason the edits were not incorporated).

I am happy to meet to discuss any of the suggestions. We can either sit and go through each highlight individually or it may be more efficient for you to go through and see which suggestions you don't agree with or want to discuss. Either way, I think we can resolve these very quickly and get B[a]P to ERC next week.
